The Magazine is published 4 times per year on, 1st March, 1st June, 1st September, and 1st December. Items for inclusion must be with the editor 1 month before publication to ensure inclusion in the next issue.

**Views expressed in the magazine are those of the various articles and their authors, and not necessarily those of the editor, officers or committee of the Cornwall Goatkeepers Association**

## **The Pygmy Goat Club**

'The new pygmy goat society that has been recently set up has no connection whatsoever with the Pygmy Goat Club, which remains, as it has been since its foundation in 1982, the official society for the breed in Great Britain. The club manages the only recognized registration system for pedigree pygmy goats.'

## **Pygmy Goat Shows**

We wish to remind all Pygmy Goat exhibitors that the following Cornish shows are run under the rules of the Pygmy Goat Club:-

Cornwall Goatkeepers Spring Show,  
Royal Cornwall Show,  
Stithians show,  
Cornwall Goatkeepers Autumn Pygmy show.

Therefore all exhibitors must be members of the Pygmy Goat Club and goats shown in Breed classes must also be registered with the Pygmy Goat Club i.e. females over 6 months and males over 12 months.

“ Entries from non Pygmy Goat club exhibitors will be returned.”

Why is it hard to carry on a conversation with a goat?

..... Because they're always butting in.

What do you call an unemployed goat?

..... Billy Idol!

# Shows for 2018

May	5th (sat)	<b>CGA Spring Show</b>	01726 823800	Dairy & Pygmy

## Hon. Vice presidents (past presidents)

Mrs N Robathan	(1992/1993)	Mr & Mrs C Leggatt	(2002/2005)
Mr & Mrs C Robinson	(1995/1998)	Mr W Richardson	(2005/2009)
Mr & Mrs D Harris	(1999/2001)	Mr N Julian	(2009/2014)

**Hon Life membership** Mr & Mrs R Whitty

# Editors Notes

Printed within this issue of the Cloven Hoof is a copy of the accounts for the financial year ending 30th September 2017 of the Cornwall Goatkeepers Association and also included as a loose insert is a copy of the AGM minutes, together with a copy of subscription renewal form.

## Welcome to our new Committee members

Linda, Nicki, and Georgia, all who breed and show goats and will be a great asset to our committee and to the Cornwall Goatkeepers Association

**Christmas Dinner** The dinner will be held  
on Saturday 13th January 2018

See back cover for full details

## Subscription Renewal

Subscriptions which remain the same as last year are due on the 1st January 2018, and within this copy of the Cloven Hoof, you will find a copy of the renewal form.

We hope you will renew as your membership is very important to us.

If you have any articles or news which can be printed in the Cloven Hoof, until we have a new permanent editor **(could that be you?)** send them to Geoff Munson at [gandamunson@outlook.com](mailto:gandamunson@outlook.com)

# PRESIDENT'S BIT

I wonder if you enjoyed reading my research in the previous magazine? As nobody objected I have more for you! I have found it really interesting to do this; it is surprising what one can learn, when we think we know most of it! Often knowing more will help us in our decisions.

Whilst most goats are born with two horns, some called “polycerate goats” have had eight horns. Wow can you imagine that? It is a rarity and thought to be inherited. Likewise polled goats when inter-bred, often result in intersex offspring which are often sterile. The reason for this is that the genes which determine sex are closely linked to those that determine whether the goat will have horns or not. So whilst polled goats save us the bother of having to remove the horn buds in young kids (preferably within two weeks of birth) they may be a problem if you want to up-bred your breeding line. I bred a polled goat once and as I was building up my own breeding line, I put the polled dam to a horned male and had no more polled offspring. Have you experienced this? Do write in to tell us all so all can learn more.

We all know that goats are ruminants but did you know that their stomach has four chambers? They are called the rumen, the reticulum, the omasum and the abomasum. Thus unlike we humans with only one chamber, who do not usually regurgitate our food, a goat will eat as much as they want, then sit down to chew the cud. Most dairy goats have an udder with only two teats, if you breed one with more, this is a fault and the female should not be used for further breeding. Those of you with Boer goats, apparently can breed a female with eight teats! Have any of you experienced this? Do Boer goats have multiple births thus needing extra teats? I must research that for next time.....

Have you noticed that goats' pupils are horizontal and slit-shaped ? Their pupils are pale, by comparison with cattle, deer, some horses and most

Milking is done twice a day. A team of 5 people arrive every morning at 5am to begin milking. It takes 3 people 4 hours to milk the goats while the rest of the team work outside bringing goats to the dairy parlour and make sure that all the animals have feed to eat and are healthy. Mornings are very busy times of the day for us making sure that everything is to milked and fed in time for the milk tanker which arrives to take the milk fresh to the factory.

In the spring when the kids are being born more people will start early to feed the kids their milk, feed them hay and do the many jobs that are needed for kid rearing. One of the interesting things about goats is that they like to kid at the same time. This means that it is normal for the farm to have 200 new baby kids born each day for a busy week. At these times we may have 4 people each day feeding and looking after new born babies. The new born kids stay with their mothers for the first day to make sure they get the colostrum they need for a healthy start to life. Afternoon milking starts again at 2.30pm

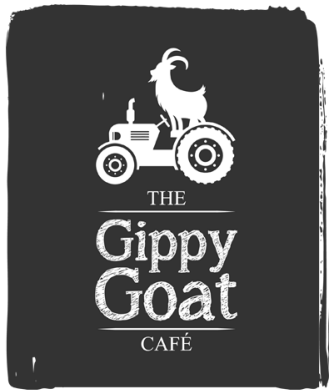

Our processing facilities are situated in Keysborough Melbourne, Australia. At our factory we make our range of fresh goat and cows milks, yoghurts, powders, dairy free yoghurts and probiotic drinks as well as our real chocolate milk drink for distribution through our outlets in Australia and to our international customers. We ensure our facilities stay at the highest level of hygiene standards and efficiency. When all fresh milks arrive to the factory directly from the farms, it is immediately transferred into large chilled silos. By keeping the milk at less than 4C we can ensure the quality and freshness is maintained. Further, the fresh milk is pasteurised the same day and is normally processed into a variety of products that same day as well.

Visit [www.thegippygoatcafe.com.au](http://www.thegippygoatcafe.com.au) for more information

Photographs taken November 2017 by Joanna Southern, friend of the Munson family

Our beautiful, open farms are located in Trafalgar, in West Gippsland, an area well known for its rich farmland, high rainfall and kind climate. We farm over 5000 dairy goats using the feed we grow on the farm and employ locally for workers to conduct the milking and farm work. At this time we farm half the total milking goats in Australia and are growing at a rapid pace to continue to be Australia's leading goat milk supplier. Goat farming, like all farming is conducted in a regular cycle. Attention to animal health and hygiene is paramount to ensure high quality milk.

- You can see there are goats as far as the eye can see!

sheep. Because goats' irises are pale, they have contrasting pupils which are more noticeable than in other animals. Both male and female goats can have beards and do you know what those dangly bits are called under their chin? They are wattles and not all goats have them. I have, so far, not found out what function the wattles performed.....another item for the future, if anyone wants to know?

Previous issues of our magazine have referred to a geep. This is the offspring of the mating off a female goat and a male sheep. So when we come to distinguish the difference between a goat and a sheep, the way that they carry their tale may not be helpful in the future! Yes, a healthy goat has a shorter tail and the tail is carried pointing up whilst a sheep's tail is always hanging down, is longer and bigger. If your goat carries its tail down this is usually an indication that he or she is not happy for one reason or another. When you read this I hope to be Gambia, so I wish you all well for this winter. I may be back for Christmas, but if not enjoy your time.....  
Sheila

Norbarton Ebonyrose at CGA Male & Youngstock Show 2017

## FROM THE CHAIR

Many thanks to those of you who were able to attend the AGM last month to witness the official proceedings of the CGA.

A proposition regarding a change in our Constitution was put to members present at the AGM and was agreed by a unanimous vote. "It should be the **Members** who vote for a President, rather than just the **Committee**, as it states in the current Constitution." It was felt incorrect that members, not on the committee, should be excluded from voting for their President. In future you will receive a nomination form in advance of the AGM for you to nominate and vote for your President.

When the committee meet again in February, 2018 I will be asking them all to produce a list of their understanding of their responsibilities. This will be converted into a Job Description which can be forwarded to anyone interested in joining the committee.

We have been made aware of a group attempting to form the UK Pygmy Goat Society – this group has no relationship with the Pygmy Goat Club. As we run our shows under the rules of either the British Goat Society or Pygmy Goat Club all exhibitors must be members of one or the other of these two concerns.

Following our AGM three members have shown their interest to join the CGA committee so at our next committee meeting we will, for the first time for many years, be up to full strength.

I look forward to seeing you at our New Year Dinner being held at the Victoria Inn, Threemilestone on the 13<sup>th</sup> January. Just let me know if you wish to book a seat.

It is just left to me now to wish you all a very Merry Christmas and a Happy New Year.

Regards  
Julia Clarke

## Show Rosettes

Thanks to Odette Eddy for organising the rosettes for all our shows, making up new rosettes, ordering new rosettes and preparing them in the correct classes, ready for each show, and at the same time, exhibiting her own pygmy goats

## Subscription Renewal

Subscriptions which remain the same as last year are due on the 1st January 2018, and within this copy of the Cloven Hoof, you will find a copy of the renewal form.

We hope you will renew as your membership is very important to us.

# CGA 2017 Goat of the Year Awards

## Dairy Breeds

Best Female Kid	Kergohan Moose	K & P Haweke

Boscadjack Rozel Mrs S Smith

The points of the above awards are collated by Jean Wilshaw, and awards are presented at the AGM of the Cornwall Goatkeepers Association

## THE CORNWALL GOATKEEPERS ASSOCIATION

### CONSTITUTION

- 1 NAME; The Cornwall Goatkeepers Association.
- 2 OBJECTIVES; The objectives of this association shall be;
  - a Extend and encourage the keeping of goats in Cornwall so as to increase the production and use of their products, and more especially to assist the small goatkeeper.
  - b Improve and develop the various breeds of goat in Cornwall.
  - c Circulate in Cornwall knowledge and general information about goats.
  - d Promote the holding of goat shows and goat sections in the local agricultural shows.
  - e Prepare and issue annually a list of stud goats available in Cornwall. To publicise the value of goats milk for medical purposes.
- 3 OFFICE BEARERS; The President to hold office for a period of 3 years and to be selected by the outgoing committee. The Hon. Chairman, Hon. Secretary and Hon. Treasurer to be elected at the A.G.M. from the committee members.
- 4 COMMITTEE; This shall consist of the officers and up to twelve committee members. The committee to hold office for one year only, but may seek re-election. The committee shall be nominated by postal vote, or at the A.G.M., followed by voting at A.G.M. All nomination papers should be returned not less than 1 week before the A.G.M. Nominees shall consist of outgoing committee members wishing to seek re-election and any current member of Cornwall Goatkeepers Association provided they are proposed and seconded by other club members. A quorum (minimum required for committee decisions) shall consist of 6 people, including officers and committee members. The committee shall have the power of co-option. The chairman shall have the casting vote. Committee members are expected to attend at least three meetings per annum. Resignations are to be formalised in writing unless the resignation is given verbally at a committee meeting.
- 5 MEETINGS; The Annual General Meeting shall be held on or before the last Saturday in October. Extraordinary meetings can be called on the request of the committee or at the request of five current members of Cornwall Goatkeepers Association. Such requests to be in writing to the Secretary, giving at least 10 days notice of such meetings.
- 6 MEMBERSHIP; Open to all interested person's who have paid their subscriptions, subject to the committee. Membership to be of two categories, single or family membership, single membership being entitled to one vote, and family membership being entitled to two votes. The minimum voting age to be 14 years. Members to accept BGS rules where applicable.
- 7 SUBSCRIPTIONS; Payable annually on the 1<sup>st</sup> of January. Shall be reviewed annually by the Committee at the Treasurer's discretion, action taken at the A.G.M. when necessary.
- 8 CHANGE OF CONSTITUTION; Any changes of the constitution or new rule, must be discussed by the committee, before putting before the club members at the A.G.M., any action must be voted for. Notification of any requested changes by a Cornwall Goatkeepers Association member must be given in writing to the Secretary at least 10 days before the A.G.M.
- 9 DUTIES; The secretary will keep a minute book, be the corresponding and communications officer of Cornwall Goatkeepers Association. Any committee member delegated to correspond, shall send copies of such correspondence to the secretary for the records. The Chairman will sign the minutes as being a true record, on approval of the committee, at the meeting which they are approved.
- 10 ASSETS; In the event of dissolution of the Cornwall Goatkeepers Association all assets remaining, after payment of outstanding expenses, are to be donated to the charity Peoples Dispensary for Sick Animals. (PDSA)

**Judges report for the Male & Youngstock**

It was interesting to judge in a part of the country where Toggenburgs, Golden Guernseys and ANs seem to be the dominant breeds. With a distinct lack of white goats and BAs it was highly creditable that the top two females, Norbarton Ebonyrose and Wilowriver Vienna were outstanding BA and white AOV goatlings respectively. Poundroll Admiral and Naypauls Banofee worthy winners of the male show. Fingers crossed for a bigger turnout next year for what is well-run pleasant, friendly and informal show.

**CORNWALL MALE & YOUNGSTOCK and**

**PYGMY AUTUMN SHOW.**

Thank you to those who gave up their Friday to set up the Gazebos, for this show. Unfortunately the wind blew fiercely on Friday evening and caused some damage to your good work, so it was decided to hold our show inside the warehouse. The owners of the venue, May's, very kindly allow us to use their warehouse in the event of inclement weather and so we were able to continue with our show, despite the weather.

We had over 50 dairy entries and almost 30 pygmy entries but unfortunately, on the day, a few had to withdraw either due to work commitment or illness of goats or exhibitors. We hope that a full recovery has been made by all and must say that we missed all of you! Most, if not all, enjoyed their day and no mishaps occurred to ruin the day. Thank you to Julia for providing tea or coffee or cold drinks. As it was quite windy most of the day, many had hot drinks. Thank you to William, for the lovely goats' milk to add to our drinks for those who preferred goats' milk to cows' milk (I was one!). Julia very kindly provided the latter. Thanks again to both of you. The hot drinks were most welcome ....

Congratulations to Bob Vickery whose Treleth Dazzle (true to her name!) won Best Female Kid, to Debby Charman, with Best Goatling, to Sue Smith with Best Male Kid and also Bob's Adult Male, Poundroll Admiral who won BEST Male and Best in Show. Admiral was awarded CC & Togg BCC. William Merrell's Naypauls Banofee was awarded GG BCC and Sue's Poplartime Kasabian was awarded AN BCC. All of whom were worthy winners!! The full results are elsewhere in this issue for you to read.

A huge thank you to our Judges, Terry and Elizabeth and also to understudy Debby, who judged alongside Terry, to expand her knowledge. Many thanks to all stewards, in the ring or looking after rosettes or doing the paperwork. Also we thank all those who came to observe or just enjoy the day. As they say "many hands make light work" and we would have not have had such a good day without you.

Finally a thank you to May's who allowed us to use their premises, free of charge.....

**THANK YOU ALL OF YOU...Sheila, Secretary.**

# Cornwall Male & Youngstock Show 19th August 2017 Dairy Classes

Judge : Mr Terry Hanna - Dromara - Northern Ireland

	Place	Goat's Name	Owner
--	-------	-------------	-------

## Class 7 - Anglo Nubian Female kids (5/2)
